Figure 8

Activation/Deactivation of Caravan Camera in Reverse

Watch a video of how to activate/deactivate:

To Activate the Caravan Camera:

- Turn the car on and wait for the system to boot up.
- Put the vehicle in Reverse gear. The system should default to the factory Reverse Camera.
- While in Reverse, long press the NAV button for 4 seconds.
- This should activate the Caravan Camera.

To Deactivate the Caravan Camera:

- Turn the car on and wait for the system to boot up.
- Put the vehicle in Reverse gear. The system should display the Caravan Camera.
- While in Reverse, long press the NAV button for 4 seconds. This will automatically change back to the Navigation Screen.
- Take the vehicle out of reverse gear, e.g. put in Park.
- Go back to reverse gear and it will default back to the reverse camera.

Activation/Deactivation of PIP mode for Caravan Camera

Activation of PIP for single Caravan Camera (AV1 only):

-  Activation: Long Press of Hang Up button on SWC
-  Deactivation: Long Press of Hang Up button on SWC

Activates AV1
-  2nd Long Press of Hang Up button on SWC:
Activates AV2
-  3rd Long Press of Hang Up button on SWC:
Deactivates PIP mode.

Figure 10

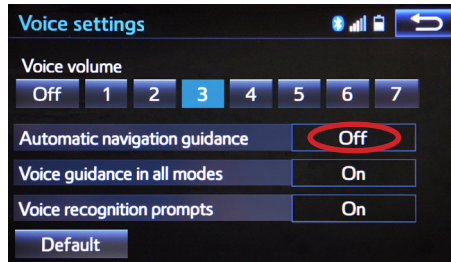

How to Turn Off Factory Navigation Commands

Please note: If Hema only navigation is being installed, they will not require this setting to be changed.

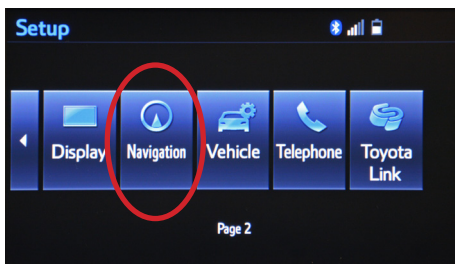

Step 1:

Access the *Setup* menu and select the *Voice* option on page 1 of the menu.

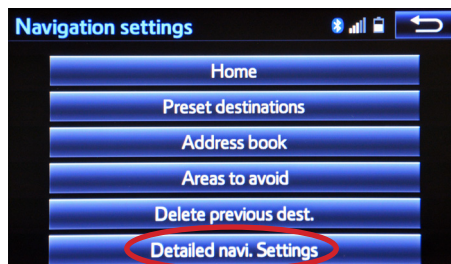

Step 2:

Click to turn OFF *Automatic Navigation Guidance*.

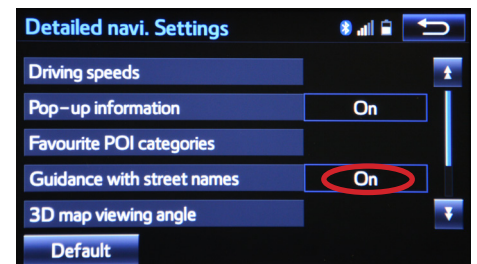

Step 3:

Go back to the *Setup* menu and select the *Navigation* option on page 2 of the Setup menu.

Step 4:

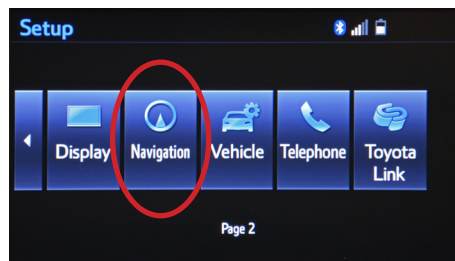

Select the *Detailed navi. Settings* option of the *Navigation Settings* page.

Step 5:

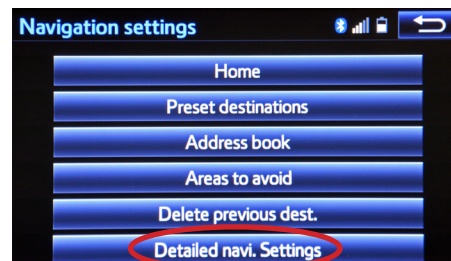

At the top of the *Detailed navi. Settings* menu, you will see the *Guidance with street names* setting. Click to turn OFF.

How to Calibrate the Factory Navigation

Step 1:

Access the *Setup* menu and select the *Navigation* option on page 2 of the Setup menu.

Step 2:

Select the *Detailed navi. Settings* option of the *Navigation Settings* page.

Step 3:

Towards the bottom of the *Detailed navi. Settings* menu, click on the *Calibration* option to calibrate device.

How to Turn ON/OFF Factory Beeps

Please note: This setting is for vehicles with the optional I385 Navigation Override module installed.

Step 1:

Access the *Setup* menu and select the *General* option on page 1 of the Setup menu.

Step 2:

There you will see the *Beep* setting. Click to the right to change from ON/OFF.

How to Switch Navigation Sources

How to access Hema 4WD Nav:

Step 1:

The first time you activate the system it will boot to the street nav as default. To switch to Hema, click on the Menu icon.

Step 2:

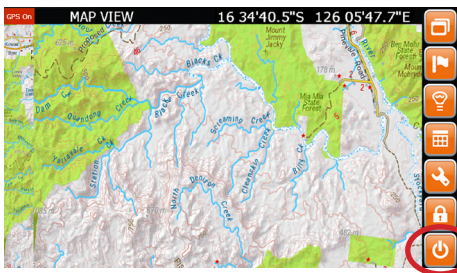

Select the *Exit* button at the top left of the screen.

Step 3:

This will open the *Navigation Selection Screen*. You now have 5 seconds to select *4WD Nav*, otherwise it will automatically reboot back to Street Nav. Once selected, Hema 4WD Nav will now begin to load on your screen.

How to return to Street Nav:

Step 1:

Press the *Exit* button in the bottom right of the Hema Menu

Step 2:

This will open the *Navigation Selection Screen*. You now have 5 seconds to select *Street*, otherwise it will automatically reboot back to Street Nav. Once selected, Street Nav will now begin to load on your screen.

Navigation Instructional Videos

Premium Street Navigation:

We have many videos on how to use our Premium Street Navigation System. Use the link to visit our YouTube Channel and learn more about how to use our Navigation.

Hema 4WD Nav:

There are many videos on how to use and customise your Hema 4WD Nav. Use the link to visit Hema's Knowledgebase and view Video Tutorials.
